Radical Deviltry.

Another election Farce Bill has been reported in the U. S. Congress. It originated with Southern Radicals who have been defeated for office at recent elections, and who are infesting the Capitol in the hope of inducing Congress to repeat the scheme of legislating them into place again. The measure is so hideously atrocious that it excites the apprehensions of even so zealous a Radical newspaper as the N. Y. Tribune. It subordinates State authority to federal usurpation and provides swarms of spies and understrappers to corrupt the ballot-boxes. It bristles with pains and penalties of the most outrageous character. The Republican leaders in their desperation are precipitating their own overthrow. The schemes which they are concecting for the re-enslavement of the South will fail of their intended effect in this section, and will react powerfully against them in
